

On December 11, 2007, TITV15 becomes TITV615

Brighthouse Networks will realign many of its basic cable channels to a new number, including TITV15, beginning December 11, 2007.

All government access stations throughout the Brighthouse Network that use channel 15 will move to channel 615.

If you do not currently have a cable TV box connected to your television, you will need a cable TV box to continue viewing TITV at its new channel number.

Brighthouse Networks offers its customers a cable TV box, for \$1/month, programmed to receive your current channel line-up, TITV and the other relocated channels (listed below). To order a box and connections, call Brighthouse Networks at 727-329-5020.

Other government, educational and public channels assignments are:

614 School Board Channel

615 City TV Channels

620 St. Petersburg College Channel

621 NASA Channel

622 Pinellas County Government Channel
