- **REVISED PROJECT SCOPE?** (yes or no)
  - Yes

- **REVISED PROJECT BUDGET?** (yes or no)
  - Yes

**HAS ANY WORK BEEN PERFORMED IN PAST YEARS?**

Only roadway patching previously performed that does not address the base failure or drainage issues.

---

**PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:**

This project includes significant roadway and drainage improvements to the east side of the Treasure Island Causeway. State funding has been re-appropriated in the FY2020 Budget. The Engineering Costs: $141,400 General Fund for Roadway portion and $52,300 Stormwater Fund for the Stormwater portion totals $193,700 that was proposed to use FY 2019 appropriated funds.

---

**IF NOT A NEW PROJECT AND IS AN EXISTING PROJECT:**  
REVISED PROJECT SCOPE? (yes or no)  
REVISED PROJECT BUDGET? (yes or no)

---

**HAS ANY WORK BEEN PERFORMED IN PAST YEARS?**

No, the existing bottlebrush trees have outlived their life expectancy and become a debris issue during storms.

---

**PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:**

This project will start with the East Causeway where most existing landscaping is being removed due to road reconstruction and drainage improvements. Installation of new landscaping for consistency with the Central and West Causeway areas. Staff will develop a preliminary landscaping plan with a focus on low-maintenance and native vegetation for commission review and approval.

**PROJECT TITLE:** Replace Bascule Bridge Hydraulic Components

**FUND:** General

**DEPARTMENT:** Public Works

**DIVISION:** Causeway

---

**NEW PROJECT? (Y/N):** N

**REVISED PROJECT SCOPE? (Yes or No):** Y

**REVISED PROJECT BUDGET? (Yes or No):** N

---

Work on this hydraulic system is on-going. FY 16/17 the nose lock cylinders were replaced and one cylinder was rebuilt to serve as a spare. Bridge Condition-based maintenance activities are performed on individual bridge elements in response to known defects on bridge components.

---

**PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:**

Condition-based Maintenance activities are identified through the city's inspection process and Computerized Maintenance Management System (CMMS). This system is also referred to as Asset Management. The City is implementing CityWorks to manage the Bridge Assets.

---

**LIFE EXPECTANCY OF PROJECT IN YEARS:** 15

**COST ESTIMATE METHOD:** Engineer's Estimate

**DATE COST WAS CALCULATED:** FY19

**COST ESTIMATE SOURCE:** Operation and Maintenance Plan for the Bascule Bridge

REVISED PROJECT BUDGET? Y (yes or no)
HAS ANY WORK BEEN PERFORMED IN PAST YEARS?
Camera system upgrade. Minor lightening protection and surge supressor replacements have been performed as needed by routine inspection.

PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:
Condition-based Maintenance activities are identified through the city's inspection process and Computerized Maintenance Management System (CMMS). This system is also referred to as Asset Management. The City is implementing CityWorks to manage the Bridge Assets. Upon routine inspection, the bascule bridge's major electrical components will be rehabilitated to include switchgear, motorstarters and major maintenance to the better operations and less technician repair costs.

LIFE EXPECTANCY OF PROJECT IN YEARS: 10
COST ESTIMATE METHOD: Engineer's Estimate
DATE COST WAS CALCULATED: FY19
COST ESTIMATE SOURCE: Operation and Maintenance Plan for the Bascule Bridge

### IF NOT A NEW PROJECT AND IS AN EXISTING PROJECT:  
- **REVISED PROJECT SCOPE?** (yes or no)  
- **REVISED PROJECT BUDGET?** (yes or no)

The bascule bridge was built in 2007. Painting was completed in early 2015. The structural steel for the bascule bridge leaves were not painted at that time.

### PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:
Condition-based Maintenance activities are identified through the city's inspection process and Computerized Maintenance Management System (CMMS). This system is also referred to as Asset Management. The City is implementing CityWorks to manage the Bridge Assets. During the last 4 years of bridge inspections, the underside of the bascule bridge leaves is showing signs of rust. In addition, electrical conduit hangers under the bridge are rusting and need to be replaced with stainless steel brackets and hangers. Also, there is concrete spalling that needs to be restored. Option #1 spot painting areas of the bridge, concrete spall restoration, epoxy crack injections and unistrut utility hangers ($450,000). Option 2 Complete repainting of structural steel leaves and all of Option #1 ($1,580,000).

### Project Description, Scope and Objectives for All 5 Years:
Condition-based Maintenance activities are identified through the city's inspection process and Computerized Maintenance Management System (CMMS). This system is also referred to as Asset Management. The City is implementing CityWorks to manage the Bridge Assets. The bridge control system is becoming obsolete due to the age of the individual control system components. The technology used for the control system is over 15 years old. The control system has been in operations for over 10 years. The manufacturers of the control system components no longer make specific components that are vital to the efficient operations of the bridge.

Replaced parking meters with new parking pay stations/meters that accept multiple forms of payment as well as expanded the number of metered parking areas in 2017.

**PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:**

This project will enable the City to continue to evaluate areas for structured parking to improve signage, pedestrian safety, access to downtown areas or larger facilities and potentially generate additional revenue if additional parking areas are metered. Some areas throughout the City required improvements to be made to provide for structured parking.

**Fund:** Penny for Pinellas  
**Department:** Recreation  
**Division:** Treasure Bay  
**PROJECT TYPE:** Purchase  
**NEW PROJECT? (Y/N):** N

**REVISED PROJECT SCOPE? (yes or no):** N  
**REVISED PROJECT BUDGET? (yes or no):** N

**PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:**

Upgrades to the facility are needed due to age and deterioration which include replacement of the tennis courts lights on courts 1-8. On-going maintenance is needed to replace light bulbs and reposition lights. Due to type and age of lights, there are many shadows on the courts which can be a safety concern and unfavorable for night play. The seawall surrounding the facility needs to be significantly rehabbed or replaced - will

CITY OF TREASURE ISLAND
CAPITAL IMPROVEMENT PROJECT PROPOSAL
FISCAL YEARS 2020 - 2024

PROJECT TITLE: Street End Improvements
FUND: Storm Water
DEPARTMENT: Public Works
PROJECT TYPE: Storm Water
DIVISION: Storm Water
NEW PROJECT? (Y/N) N

IF NOT A NEW PROJECT AND IS AN EXISTING PROJECT:
REVISED PROJECT SCOPE? N (yes or no)
REVISED PROJECT BUDGET? N (yes or no)
HAS ANY WORK BEEN PERFORMED IN PAST YEARS?
Yes, street ends are being beautified on an on-going basis. 121st Ave, 122nd Ave, 123rd Ave, and 124th Ave are completed. Work on 125th Ave is being completed in FY20.

PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:
Upgrade street ends to make them attractive gathering spots, including pavings, benches, plantings, trash receptacles, etc. Includes surveying and engineering and stormwater improvements as drainage is an issue along Lagoon Lane.

WILL IMPACT SERVICE LEVELS? Y/N Y HOW? Better design for use by citizens
WILL INCREASE EFFICIENCY? Y/N N HOW?
### PROJECT TITLE:
Replace Roadside Curbing

### FUND:
Storm Water

### DEPARTMENT:
Public Works

### DIVISION:
Storm Water

### NEW PROJECT? (Y/N)
Y

### REVISED PROJECT SCOPE? (yes or no)
Y

### REVISED PROJECT BUDGET? (yes or no)
Y

### HAS ANY WORK BEEN PERFORMED IN PAST YEARS? (yes or no)
Y

Very little work has been performed on curb replacement.

### PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:

Curbs throughout the City are cracked and/or ponding stormwater. Curbs will be removed and replaced in the City-owned streets over a 10-year period (10% a year). Total estimated engineering and construction costs are just under $5,500,000 spread out over a 10-year period.

### LIFE EXPECTANCY OF PROJECT IN YEARS:
25

### COST ESTIMATE METHOD:
Staff Estimate

### DATE COST WAS CALCULATED:
FY 19

### COST ESTIMATE SOURCE:
In house estimate at $60/LF of curbing. 21 miles of roadway; therefore 42 miles of curbing. Staff estimates that approximately 50% will need to be replaced.

The City has completed a six phase stormwater project in Sunset Beach.

A Stormwater Master Plan is being developed by the City's engineer of record. The plan is anticipated to be completed FY 2019. The Master Plan will identify and prioritize City-wide stormwater improvements and will provide the City with a list of projects that will be eligible for SWFWMD water quality improvement grant funding.

---

**Project Description, Scope and Objectives for All 5 Years:**

Our Virtual Server hardware stack has three (3) computing units. This plan will replace one unit a year, for 3 years. The advantage of spreading out the stack replacement is: 1, to spread the cost over a three year period. 2, if there is a major technology change or other factors that require replacing the entire stack, our investment cost and loss will be less than if we replaced all three stacks at the same time.
**PROJECT TITLE:** Replace Data Backup System

CAPITAL IMPROVEMENT PROJECT PROPOSAL
FISCAL YEARS 2020-2024

PROJECT TITLE: City Telephone and Unified Messaging System Replacement
FUND: General
DEPARTMENT: IT
DIVISION: Purchase
NEW PROJECT? (Y/N) N

IF NOT A NEW PROJECT AND IS AN EXISTING PROJECT:
REVISED PROJECT SCOPE? N (yes or no)
REVISED PROJECT BUDGET? N (yes or no)
HAS ANY WORK BEEN PERFORMED IN PAST YEARS? 

PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:
To replace the City's Telephone and Unified Messaging system. This system will replace the current system as it reaches its End Of Life. It will also allow us to use newer technology, reduce our communications cost and increases our available services for our EOC. Industry EOL is 5 years. Our current system was install in 2012. Our current system is out of production and we are not able to acquire service contracts.

LIFE EXPECTANCY OF PROJECT IN YEARS: 8 Years

PROJECT ATTRIBUTES: (helps to justify project priority)
END OF USEFUL LIFE? Y/N Yes EXPLAIN? 5 year EOL - System will be 8 years old.
IS A PUBLIC SAFETY CONCERN? Y/N Yes HOW? This is the Primary Communications for Fire, Police and
WILL IMPACT SERVICE LEVELS? Y/N Yes HOW? All departments and All external communications are
INCREASE EFFICIENCY? Y/N Y HOW? New system will increase efficiency as it will allow for the
newer communication technologies and will lower overall communication cost.
Wastewater

CIP Project Sheets
## PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:
Starting in FY22, the 10 year warranty periods will be up and the City will need to restart this program. Each manhole has been inspected to determine whether relining is necessary. The relining will occur on a priority basis to be performed over the next five years.

**PROJECT BASIS:** (check one)
- REGULATORY-BASED (Mandatory by Federal, State or Local Law)
- SERVICE-BASED (Requested by Citizens or is for the benefit of the community)

**PROJECT ATTRIBUTES:** (helps to justify project priority)

- END OF USEFUL LIFE? Y/N N
- IS A PUBLIC SAFETY CONCERN? Y/N N
- WILL IMPACT SERVICE LEVELS? Y/N N
- WILL INCREASE EFFICIENCY? Y/N Y

Ongoing Manintenance
Minimize infiltration into manhole.
### Lift Station Rehabilitation

**Project Title:** Lift Station Rehabilitation  
**Fund:** WPC  
**Department:** Public Works  
**Division:** WPC  
**New Project? (Y/N):** N

**If Not a New Project and Is an Existing Project:**
- **Revised Project Scope?** N  
- **Revised Project Budget?** N

**Has Any Work Been Performed in Past Years?**
Ongoing. Most recently the City rehabilitated lift stations 6, 7, 8, and 9. Lift stations 1, 2, 5, 10 and 11 are being rehabed in FY20.

**Project Description, Scope and Objectives for All 5 Years:**
This City completed the latest refurbishment cycle of the City's wastewater lift stations in FY20. In FY2023 the rehabilitations will start over beginning with lift station #3. Master Pump Station FY24.

**Life Expectancy of Project in Years:**
10

**Cost Estimate Method:** Staff Estimate  
**Date Cost Was Calculated:** FY 17  
**Cost Estimate Source:** Engineering estimate

Maintenance and lining is ongoing.

PROJECT DESCRIPTION, SCOPE AND OBJECTIVES FOR ALL 5 YEARS:  
This project continues the successful relining project of the City's gravity main system. In FY 17/18, the City has $521,000 budgeted for sewer and stormwater relining. The cost estimate is projected to be $300,000 in FY 2019 with a 5% increase annually in cost for relining and $110,000 per year starting in FY 2020 to replace the valve vault hatches at the liftstations to prevent inflow during rain events.

LIFE EXPECTANCY OF PROJECT IN YEARS: 50

COST ESTIMATE METHOD: Staff Estimate
